

# Building Ethylene Operational Excellence

16 & 17 October 2023 - Johor Bahru, Malaysia

- Ethylene Process Safety
- Ethylene Process Chemicals and Water Treatment
- Ethylene Distillation Troubleshooting - Karl Kolmetz KLM Technology Group
- Ethylene Rotating Equipment
- Ethylene Furnace Optimization
- Ethylene Relief Valves and Flaring Systems
- Ethylene Optimization and Benchmarking
- Along with Special Invited Industry Speakers

**Speaker**

*Andrew W. Sloley*

*Stephen Wallace*

**Special Presentation by :**

Consulting, Guidelines and Training

KLM Technology Group is recognized world-wide as leader in the areas of distillation simulation, column design and unit commissioning with one of the best track records in the industry.

This workshop is designed for operations, technical, maintenance personnel and managers to share experiences that allows continuous improvement which is vital to ensure reliable and optimized operations. The material may also be a good introduction for procurement related personnel who may develop an understanding of overall systems and how they can balance performance and commercial interest

*KLM has been supporting the ethylene industry companies for the past 27 years via its consulting and training. KLM has worked with licensors and EPCs for major revamps, debottlenecking and greenfield projects. The workshop facilitators each have more than 20 years' worth of experience which will make the sessions invaluable.*

**Course Fee for 16 hour Seminar**

**APPLY NOW**

	In Person	On line
USD	\$ 225	\$ 50
RM	\$ 995	\$ 225

- *Plan now to attend our Building Ethylene Operational Excellence special day of training, on 16 & 17 October 2023 from 8AM to 4PM.*
- *Coffee Breaks and Lunch will be provided for in person attendees*
- *We are offering limited free pass to Operating Company Personnel.*
